

In the claims:

Please amend claims 1 and 7 as follows:

1. (Amended) A photoprinter configuration, comprising:

a) a digital camera comprising a viewable display and one or more selection mechanisms;

and

b) a photoprinter capable of processing and printing digital files independent of an external host device and connected to the digital camera via a communication link, the photoprinter being operative to control the viewable display of the digital camera.

7. (Amended) A method for controlling a digital camera, comprising the steps of:

a) obtaining a photoprinter capable of processing and printing digital files independent of an external host device and operative to print digital photographs onto printable media;

b) obtaining a digital camera comprising a viewable display and one or more selection mechanisms;

c) connecting the digital camera to the photoprinter via a communication link;

d) transmitting a plurality of instructions from the photoprinter to the digital camera via the communication link; and

e) controlling the digital camera by the photoprinter in accordance with the plurality of instructions.
